

Convoy Protest CCG Meeting Minutes

Attendees: Jason Reynar, Drew Dilkens, Chief Laforet, Deputy Wilker, Deputy Waffle, Shelby Askin Hager, Jelena Payne, James Chacko, Chris Nepszy, Joe Mancina, Jason Moore, Chief Mizuno, Deputy Bellaire, Ryan Lemay, Ray Mensour, Matthew D'Asti, Andrew Teliszewsky, Phong Nguy, Carolyn Brown, Tyson Cragg, Emily Bertram, Susanne Hutnik

Deputy Bellaire: Some concerns with a protest of disgruntled protestors lawfully gathering down at the large Canadian flag on the waterfront this Saturday. Will be careful of the tunnel while this is occurring. The fervor has led to an arrest due to a social media threat to the mayor. Monitoring Hwy 401 and Ottawa.

Tyson: Detour on Central 3 is now open and you can get up the backside of Daytona. Free fares started last evening and ongoing until further notice.

Chief Laforet: Updating on the traffic model. Police are sending updates from Police comms centre to our comms centre. Continually liaising with the EOC.

Joe Mancina: Working with Melissa Brindley who is tracking Police costs. Have the email correspondence on MTO and Jersey barriers. Melissa is tracking costs and getting invoices. We have set up chartfields. There are big costs with the barriers.

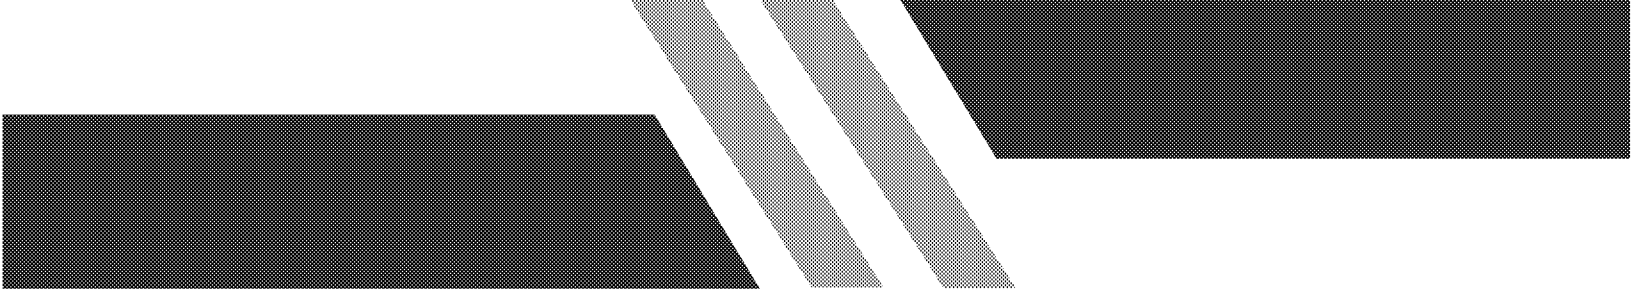

Chief Mizuno: Melissa is tracking everything.

Ryan: Can we get her contact info because we are tracking on our end for a later discussion.

Joe: Melissa is at police. We have set up tracking for things in Chris' or Shelby's areas and will bring it all together along with Melissa's. Melissa is the primary source so Ryan touch base with her.

Chief Laforet: Deputy Bellaire, how does it work with Police's mutual resources? Is it reciprocal?

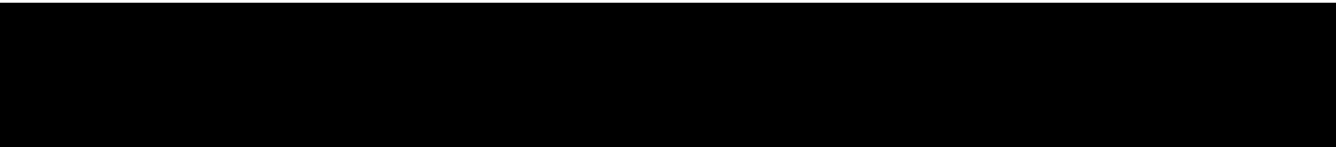

Deputy Bellaire: It depends. Some agencies will bill other agencies for OT costs and logistics, but when it is a large-scale provincial or federal cost, they can share the costs or cover the costs. We may be on the hook for some of the cost here. Cost allocation will be determined at a higher level.

ROUND TABLE

Chris: We continue to support the operational changes and modifications and have good communication with the EOC. When the snow and water turns to ice, that won't help things. Residential side streets are getting overuse. Looking at additional signage still.

Jason R: Jelena is the new Commissioner of Economic Development and Innovation.

Ryan: We switched from two dedicated resources at Huron Church to two roaming units. Reach out if you need him.

Phong: Worked with police and have the winter control handled for the upcoming storm.

Jason M: Working with police on mapping the area on Huron Church. A couple more maps are coming from Talya Natyshak at WPS to show case how to get to businesses more easily. Police dealing directly with geomatics on maps right now.

Chief Laforet adjourned the meeting at 0944 hours.
